## Functional Skills Maths - Entry Level

### Entry requirements:

Grade F or G/grade 1 in a GCSE or if you have no formal Maths qualifications.

### Who is the course for?

Anyone who needs to gain a basic grasp of everyday maths, to then work towards maths at a higher level. Developing your maths skills helps you in practical everyday activities such as planning a holiday, deciding on the best offer in a shop, decorating a room or understanding health information and is used frequently in the workplace.

**Examining Board:** Pearson (Edexcel)

### Course contents:

Students will work on studying key, basic mathematical skills.

This will involve all areas of maths, including:

- number
- measure, shape and space
- handling data.

You will be entered for a suitable entry level exam, depending on your ability and progress.

### What next:

Functional Skills Maths – Level 1.
