Functional Skills Maths – Level 1

Entry requirements:

A grade E/grade 2 in a GCSE or Entry Level 3 in Functional Skills.
You will also have a placement test at the beginning.

Who is the course for?

Students who need to gain a solid understanding of the mathematical skills needed for further study, the workplace or everyday life. Everyday decisions are often based on mathematical information. Developing your maths skills will help you to make the best choices.

Examining Board: Pearson (Edexcel)

Course contents:

You will work on studying maths problems set in practical, real-life contexts. You will be identifying, analysing and interpreting mathematical information within a variety of situations. This will involve all areas of maths, including:

- number
- measure, shape and space
- handling data.

What next:

If you are successful at passing Level 1 then you can progress onto GCSE Maths.
